Continuation of NOTE 3: The proposed amendments will not be entered. Newly added independent claim 49 and the amendments to independent claims 25, 31, 34, and 46 raise new issues that would require further consideration and/or search because the subject matter added to the claims further limits the claims. Specifically, the independent claims now include "a first data block" and "a second data block" and these features require further consideration under 35 USC 103 because the previous claims only recited "a data block".
